

Emergency - Inclement Weather Notification

In general, in any emergency closure of Omak School District, the District will send phone calls via SchoolMessenger Communicate (parent/guardian contact information needs to be updated for this to work). Parents can also listen to the local radio stations, KNCW-FM 92.7; KOMW-AM 680; and KZBE-B 104.3 for information about the closure. The school or District will contact the radio stations with all necessary information, and update it as needed. We ask that parents not call the school or district, since numerous phone calls make emergency communications difficult.

Information will also be posted on our [Facebook](#) page and on the main page of the Omak School District website.
