

## Medication Reminder:

Students who are to receive medication at school, including over the counter medications, must have an “Authorization for Medication at School” signed by the prescribing physician and parent. The form is available at school offices. The medication must have a current pharmacy label matching the physician and orders and be in the original container. The parent or designated adult (over 21) must bring the medication to school. Children may not transport medication. No medication will be given without physician and parent authorization. In some instances, children are allowed to carry medication on them. This must have approval from both the school principal and school nurse. Medication regulations are set according to state law, RCW 28A.210.260 and 270.
