

Long-Range Facilities Plan

Approved Sept. 2016

The district began the process of planning a 20-plus year facilities plan in 2014, finishing in the summer of 2016 and achieving board approval in September 2016. The plan is a "living document," and will change as needs of the district change, but this is our starting point. The information and prioritization was gathered from community surveys, staff input, professional studies and a year of work from the facilities study committee.
