## OCTOBER BOARD REPORT

### DISABILITY AWARENESS MONTH

October is disability awareness month. The special education team at North created an interactive bulletin board in honor of disabilities awareness month. The board has different colored ribbons that represent different disabilities of students that are in our school or have been in our school at some point. There is also definitions of each disability represented on the board. Students and staff take a ribbon off of the board and wear it to bring awareness to that disability.

### IT'S PUMPKIN TIME!

On Oct. 7th first graders cleaned up and composted the pumpkin vines in North's Pumpkin Patch. Kindergarten will continue to plant the patch each year and first grade will harvest, clean-up and compost. We will also be learning about worms and adding them as decomposers at the end of October with the help of the Okanogan Conservation District's Jim Anderson. Next year, we hope to have at least one pumpkin for each classroom!
